

"LINCOLN'S LAN" WILL RETIRE FROM PUBLIC LIFE AFTER FIFTEEN YEARS OF SERVICE

Liberal-Conservative Association Present Their Valued Member With a Purse of Gold and an Address, Expressive of Loyalty Towards Him

SPRANG A SURPRISE ON THEM

Mr. Lancaster Announced that he Would not Again Accept the Nomination for the County and Would not Again go Before the People as a Candidate

The Liberal-Conservative Association of the County of Lincoln on Tuesday night, July 14, showed its appreciation of the fifteen years of parliamentary services of E. A. Lancaster, K.C., M.P., by presenting him with a well lined purse and an address expressive of loyalty towards him and best wishes for his restoration to complete health.

After thanking the donors, Mr. Lancaster sprang something akin to a surprise, by notifying the party that he would not again accept the nomination for the county and would not again go before the people as a candidate. This he said was his unalterable decision, arrived at after mature thought.

The presentation took place at Mr. Lancaster's residence on York Street. Those present were: A. C. Kingstone, Levi Moyer, Fred R. Parnell, David Allan, J. H. Ingersoll, Dr. C. O. Elliot, Jas. A. Keyes, E. C. Graves, R. Newman, Ald. J. D. Chaplin, H. O'Loughlin, W. Loosmore, F. C. Coy, Jas. Dakers, Jos. Doyle, R. Secord, W. J. Drope, Arthur Swayze, J. Langton, F. Lowery, S. Houston, F. A. Baggett, F. J. Swayze, C. H. Clans, W. Elliott.

FUNNY MAN ENACTS THE ROLE OF A REAL HERO AT THE BEACH

Mr. Sam Brandfeld, Comedian of the Knickerbocker Stock Co. Rescues two Young Men from Drowning off the Beach Wharf, on Thursday Afternoon

THEIR BOAT UPSET

Robinson Bros. who Conduct the Ice Cream Parlor on the Bathing Beach, Were the Unlucky Young Men—Sam Brought Them to Safety With a Pike Pole

When you go to a show, you laugh at the comedian and cheer the hero to the echo. But in real life it is not always the "Hero" who is the hero and this was proven on Thursday afternoon last at GRIMSBY Beach.

Along about three o'clock the Robinson Bros. who conduct the ice cream parlor on the bathing beach were out in a boat for a row and, when nearing the shore their boat upset and precipitated them into the cold dark, deep waters of Lake Ontario.

About this time Mr. Samuel Brandfeld, one of the funny men of the Knickerbocker Stock Co. was taking his usual afternoon constitutional along the wharf and noticed the predicament that the two young gentlemen were in and saw at a glance with his ever alert eye that they were in trouble and in great danger of drowning.

Samuel with great presence of mind grabbed a large pike pole which was lying on the wharf and shoved it out to the two young men, who grabbed it like a chicken grabs a worm. Sam pulled them to the edge of the wharf and then assisted them to the top amid the applause of a great number of onlookers.

Although Sam is a joke on the stage, he has proved himself to be a man of brain and muscle just like a real hero of the stage.

SENATOR GIBSON'S WILL FILED FOR PROBATE; THE WIDOW GETS THE HOME AND INCOME

Mercantile Trust Co., of Hamilton are the Trustees, and Kerr and Thomas the Solicitors—Sisters and Brothers Receive a Yearly Income for Life

ESTATE TOTALS \$823,231

Beamsville and Crookston Quarries valued at \$5,919.19
—Life Insurance \$29,015.70
—Book Debts and Notes \$21,586.28—Bank and other Stocks \$595,671.40

On Thursday last, letters of probate were granted in the surrogate court of the County of Lincoln of the will of the late Hon. William Gibson, who died on May 4 last at Beamsville. Under the will the trustees are the Mercantile Trust company of Canada; John Jennings, Toronto; John M. Eastwood, Hamilton; Charles Warren Darling, Toronto and David Nicholson Finnie, Winnipeg, sons-in-law.

The solicitors for the trustees are Kerr, Thompson & Snider, Hamilton. The estate of the late senator totals \$823,231.19, made up as follows: Household goods and furniture, \$4,500; stock in trade and equipment at Crookston and Beamsville quarries, \$5,919.19; horses, carriages and harness, \$1,000; book debts and promissory notes, \$21,586.28; monies secured by mortgage, \$15,448.66; monies secured by life insurance, \$29,015.70; bank and other stocks, \$295,571.40; securities for monies, \$15,460.59; cash in hand, \$1,075,543.37; personal property, \$4,263; real estate, \$23,000.

The will says: "I will and bequeath to my wife, Margaret Mackie Gibson, all my household furniture, and effects, goods and chattels, and personal property of every kind, except monies or securities for money, which shall be in or about my dwelling house or grounds at the time of my death. I further bequeath her the use of the house and grounds and I direct that all charges for repairs, insurance, taxes, be paid by my trustees out of the estate, my intention being that the said dwelling house shall be a home for my wife and my children while unmarried."

There is a premise in the will that the place may be sold to apply the proceeds of sale to buying such other house or grounds in Ontario as Mrs. Gibson, with the consent of a majority of the children, may wish, and the trustees may add \$15,000 towards such purchase.

Mrs. Gibson is to be entitled to the use of such house and grounds during her lifetime for herself and children while unmarried, provided that if at any time his youngest child shall have attained the age of 25 years and the wife desires to sell the house and grounds, the trustees shall sell the same and invest the proceeds as part of the general trust estate and pay to Mrs. Gibson \$450 per annum for the

Fifty Prominent Fruit Growers Discussed the Situation in Grimsby on Saturday Night and Decided to Appeal to the Dominion Railway Commission

WILL CIRCULATE A PETITION

For Days in Succession Fruit did not Reach Montreal Until Late in the Afternoon—On More Than one of These Days Box Cars Were Used to Carry it

Alleging that the poor service given by the Canadian Express Company has cost the fruit shippers of the Niagara district several thousands of dollars this season, fifty prominent growers discussed the situation on Saturday night, at GRIMSBY and decided to appeal to the Dominion railway commission. With this end in view a committee consisting of Hon. E. D. Smith and Messrs. Pretz, Hastings and Carpenter was appointed to arrange for the circulation of a petition, which it is expected will be signed by growers throughout the entire district. The petition and data will then be placed before the board.

Saturday's meeting was held in the GRIMSBY Hall with C. W. F. Carpenter presiding and J. W. Hewitson acting as secretary. The service was bitterly criticized and dealers claimed that shippers to Vipond and Company of Montreal, lost \$10,000 alone in two days last week as a result of delay and the way the fruit was handled.

It was stated that on three successive days the fruit didn't reach Montreal market until late in the afternoon when it should have been landed at 5 o'clock in the morning at the latest.

On more than one of these days, it was said, box cars were the mode of carrying perishable commodities by express from St. Catharines to Montreal. It was alleged that instead of leaving Toronto at 10 o'clock at night as per schedule, the fruit was held until four in the morning on several successive nights and then on its arrival in Montreal run into seething sheds and sold for what it would bring at a late hour in the afternoon. The following copies of telegrams sent out to the district dealers were submitted:

Express Late
Montreal, Que., July 15.—Heavy receipts and express late, raspas sold eight to twelve, large baskets black cherries, sixty to a dollar quarter; halves fifty-eight, reds, sixty seventy halves.

Another Late Train
Montreal, Que., July 16.—Weather boiling, express arrived this afternoon fruit heated, raspas sold eight to eleven, red currants five to six, sweet and black cherries, fifty to dollar ten, halves thirty-five to sixty, gooseberries forty to sixty-five, red cherries forty, sixty, etc.

Next Day Also
Mon. real, Que., July 17.—Express arrived at three-thirty, raspas, five to eleven, red cherries thirty-five, forty,

Spend Your Money at Home

(CONTRIBUTED)

"How are your peaches this year?" This has become a more or less painful joke in this vicinity! The chances are that peach growers will have to curtail their living expenses to some extent this fall and that such a curtailment will be felt throughout the community. Reduce this hardship to a minimum by doing all your trading at home. Keep every dollar you can right here and times will not be so very hard. When merchants and others receive a good share of the cash trade, they are then in a position to advance easier credit terms, and the result is that everyone is well served and well satisfied.

We have well stocked stores here. Prices compare very favorably with those anywhere and if we are alive to our own interests, we will say "GRIMSBY FOR THE GRIMSBYITES" and live up to it. The business men feel that a great deal of cash is sent away for goods, but that the people come to them when they want credit, they resent it, and justly so, and conditions are brought about that make it impossible to do a credit business in the community. Spend your money from now to the end of the year with your home stores and you will find them only too ready to sell you spring merchandise on two or three months time.

PARENTS SHOULD TEACH THEIR CHILDREN BETTER MANNERS

Each and every year the Town Council grants a sum of money to the 44th Regt. band, for a series of band concerts, to be played in Liberty Park. These concerts are much enjoyed by the citizens but there has always been a drawback to these open air concerts, and this year it is still evident. The drawback is the noise and disturbance caused by the children and adults who should know better. The people go to these concerts to hear the band, but are always disturbed and annoyed by the yelling and yelling and running, and tumbling of a lot of kids. Sometimes the noise is so loud that you can hardly hear the band. If Chief Swayze or anybody else says anything to the children or asks them to be quiet, then the parents start to howl and cannot say anything hard enough about the Chief. It is high time this nuisance was stopped and if the parents of these children cannot teach them to behave themselves when out in public, then Chief Swayze had better make an example of a couple of them. It is really not the kids' fault. It is the fault of the parents.

GRIMSBY BEACH CO. IS MAKING HISTORY

The new GRIMSBY Beach company is certainly making history in more ways than one. For the first time in the history of GRIMSBY Beach and old GRIMSBY Park before it, a steamer docked at GRIMSBY Beach on Sunday and unloaded and loaded up with passengers. At eight o'clock the big palace steamer, Rapids King, with her lights shining and flags flying, docked at the Beach wharf, from Hamilton, let off a few passengers, took about a hundred and fifty on board and pulled away for Toronto. This is the first time in the history of this property that a steamer ever docked or pulled away from the wharf on a Sunday. The Sunday boat service will probably become a regular service. All the Beach residents and half of GRIMSBY were on hand on the arrival of the boat.

CEMENT BLOCKS FOR NEW THEATRE ABOUT FINISHED

The first of August will see the finish of the making of the ten thousand cement blocks for the side and back walls of GRIMSBY'S new theatre which is being built by Mr. A. W. Moore, on Main St. About eight thousand and five hundred of the blocks are done. The trenches for the drain tiles and the cement footings have been dug. Work on the erection of the new house will be started about the first of the month and it should be ready for opening by October 1. The front of the building is to be of brick and plate glass. A name contest for a gold prize will be run, to select a name for the new house. It is the intention of Mr. Moore to run a new change of pictures every day, and to secure the latest and biggest features. He will also run in a road show occasionally.

CLEANING THINGS UP AT G. T. R. STATION

Our little article a few weeks ago about the state of affairs at the G. T. R. station in Grimsby has borne fruit. A copy of the INDEPENDENT reached one of the high-mucky-bi-yoodles, and he sent a man to investigate, with the result that the lavatories are being cleaned and fixed up, the waiting room scrubbed and dusted and all the seats taken out and sent away to be repaired. It is to be hoped that the G. T. R. officials will see to it that the waiting room is kept in a clean condition from now on.

BANK OF COMMERCE WILL OPEN A BRANCH IN GRIMSBY

Just as we go to press we learn that the Canadian Bank of Commerce has decided to locate in GRIMSBY. The Bank has had an option for rental on the building of Mr. H. Raynor, at the corner of Main and Mountain Sts. for some time, with the intention of opening a branch in GRIMSBY. Negotiations have been going on for some time between the Canadian Bank of Commerce and the Bell Fruit Farms Limited, with the idea of the bank taking over this big account.

We have just been informed that Mr. Raynor received a telephone message from Toronto today, stating that the bank would take up the option and would be ready to occupy the building this week.

The fruit growers and business men of the community have underwritten the bonds of the Bell Fruit Farms Limited and the Canadian Bank of Commerce has agreed to put up the money, and in addition to supply working capital to keep the big factory running this summer.

This will prove an especial boon to the fruit growers of this locality on account of the fact that the Dominion Canners' factory in this district has not been running and the markets for fruit in the cities are not nearly as good as in past years.

The Bell factory is now running full force on cherries and raspberries.

Facts and Fancies

By Frank Fairborn

I was riding in a street car in Toronto the other day and noticed a large sign read something like this "Safety First—Ladies, on alighting from the car be sure to grasp the bar with the left hand.—Signed The Society for Safety."

As I read the sign I said "It is rather peculiar that this sign is addressed to the ladies and says nothing about the gentlemen." Then my mind reverted to the innumerable extracts I had read in the newspapers about ladies receiving falls on account of the fact that so many of them got off street cars backwards, grasping the bar with their right hand and stepping the contrary way to which the car was going, instead of grasping the bar with their left hand and stepping the same direction as the car was going.

It is a rare thing to be thrown down when they get off a street car, while it is a very frequent thing for ladies to be thrown down.

A lady was dwelling on this line of thought, the thought ran through my mind "How would it be to suggest to the ladies that when they learn to get off a street car properly, they be given the vote."

As this thought ran through my mind, I smiled to myself and said "I wonder if Mrs. P. knows how to get off a street car the right way." Just at that moment the car stopped and a lady stepped down and deliberately started to get off the wrong way. I yelled to her to turn around as the car was still in motion, but she paid no heed and stepped off and Biff! Bang! Heels up, Tom Kelly! Down she went and as she sat on the ground she looked up at me as mad as a hatter, because I had warned her.

Fortunately, the lady was not hurt, but it's doughnuts to dollars that the next time she steps off a street car she will step off the wrong way again, and will naturally blame the conductor, or the motorman or the company for throwing her down, when she falls.

I used to say that the most clever men in the world were the motormen on the trolley cars on Broadway, New York.

I have seen these men do some of the most amazingly clever things. For instance, I have seen them start their cars after being in a jam and run at a high rate of speed for twenty-five feet and stop the car instantly in order to prevent striking an obstruction, and their day's work is almost a repetition of this—moving twenty feet, then one hundred feet at lightning speed, then a quick stop, then ten feet, another stop, then another short swift run, then a stop and so on through the whole down-town district, while, marvelous to relate, these men have few accidents and really make good time.

Toronto is not as congested as New York but just the same, the street car men in Toronto are a pretty clever bunch and when the tremendous amount of traffic which they handle is considered, and when the low percentage of accidents is taken into consideration, we must acknowledge that they handle a lot of people and handle them cleverly and well.

The sudden and mysterious disappearance of Miss Blanche Yorke of Tamworth, Ont., about ten days ago, the sudden disappearance of Rev. Mr. Hunt of Bridgeburg, and the sudden disappearance of quite a few other men, women and children in Canada during the last week, was ranked lower than his abolition of the bar policy out of the minds of the people.

This sudden disappearance of people is a most peculiar thing and one that has always puzzled me not a little.

A bright, intelligent, nice looking, well behaved lady or thirty-two or three, stepped out on the street of a summer's evening, Presto! She disappears. No human being saw her go. No one in the whole world, apparently, knows where she is. Not the slightest sign of foul play, not the slightest breath of scandal, not the slightest clue to account for her sudden departure from "going out and coming in among her friends."

A minister of the Gospel, a newly arrived resident of Bridgeburg, a man against whom so far there has been no breath of suspicion, goes across the river to Buffalo and Biff! Bang! he disappears from the face of the earth, as far as the people of Bridgeburg are concerned.

A woman cooks dinner for her husband, in the City of Hamilton; everything is apparently all right, but when he returns to supper! Jimminy Crickets! the house is empty, the bird has flown.

A beautiful girl kisses her mother, steps out through the front door and for the next two weeks the police of a dozen cities are kept busy hunting for her, when lo and behold! One day she walks unconcernedly into her home and scarcely deigns to give an explanation of where she was.

This is a funny world, but it isn't everyone in it who enjoys it.

There are so many different conflicts going on in so many different human and it is a great blessing that it is so.

There are jealousies, love longings, heart rendings, aspirations, inspirations and conflicts of all kinds going on in human minds, hidden from the world around them, and the time comes when the conflict gets stronger than the individual and a party disappears or does something else that is entirely unlooked for and unexpected.

So many things happen that the general public cannot find reasons for and yet you may be sure that deep down at the bottom there certainly is a reason.

The most unfortunate part of these many disappearances, is the fact that aside from the individual altogether, they create heart burnings, consternation, sorrows and trouble amongst their immediate relatives, friends and neighbors.

As our country increases in population, these kind of things will increase in number and it is only a fulfillment of the old adage "Many men of many minds, many birds of many kinds."

Things that will drive one man to destruction and cause an individual to do some ridiculous or unthought of thing has no effect whatever on another man and it is a great blessing that it is so.

Many of these disappearances have their foundation in a vicious reason and the parties disappear for the purpose of carrying on some vicious or unlawful intrigue, but many of them have other and entirely different reasons.

In some cases the victim loses temporary control of himself and wanders away either suffering from an illusion or temporary derangement.

In other cases a great trouble has grown on their minds, until it becomes an obsession and they can no longer be normal and are driven to fly from their homes to seek forgetfulness in another part of the country or to commit suicide.

In some cases the parties who disappear are very much to blame for their conduct, while in other cases no blame can be attached to them, but in every case, they afford excellent material for the newspapermen and fine opportunities for the gossips.

A report of the Provincial statistics reveals some of the most surprising things.

One is that in the Island of Manitoulin there were three times as many commitments to jail under the Scott Act in one year, as there were under license in one year.

Another peculiar thing is the fact that 3,770 persons who were committed to jail during the year declared themselves to be total abstainers from liquor.

This would indicate that total abstainers are as liable to get into trouble as any other class of people.

The total cost of the Provincial jails for the year was two hundred and three thousand dollars. This amount was more than covered by the Provincial share of the license fees, the total amount of which was seven hundred

and eighty-six thousand dollars. Of the three hundred and thirty-nine municipalities to be used for local affairs.

The report of the Massachusetts legislative commission on drunkenness was submitted to the state assembly the other day, by Michael J. Murray, Associate Justice of the Boston Municipal Court. The report stated that the commission had no hesitation in saying that neither state prohibition nor the local closing of the saloons had the effect of curing the drink habit.

A most amazing feature of the annual report of the Provincial Inspector of Asylums is that those professions contributing the greatest number of insane are governesses, nurses, students and teachers.

While at first sight, this seems rather peculiar, yet upon further consideration, it is not unreasonable.

Governesses and teachers have constantly to deal with children and studies and if there is anything which would drive a man or woman crazy it is the children of the twentieth century.

Nurses have also to deal with a very difficult class, the sick and injured, and it is little wonder that the greatest percentage of them insane.

It is not unreasonable that students become insane, as all earnest students make a heavy draw on their mental faculties and it is only to be expected that a percentage of them should break down under the strain.

A most peculiar thing, however, is the fact that the religious denomination having the highest representation in the insane asylums is the Methodist.

While this may appear peculiar at first sight yet upon further consideration it is not as peculiar as it seems.

There is nothing so apt to drive people insane as religion or too deep an interest in religious matters.

The Methodists as a rule are deeply religious and many of them are inclined to hysteria and religious mania and from this it is only a step to insanity.

It is a well known fact that very few English church people or Presbyterians ever get religious enough to make themselves insane, so that insanity that arises from religion must necessarily come from the Methodists and the Baptist congregations.

Another peculiar feature of the report is the fact that the percentage of insane from the agricultural districts is much larger than from the city.

This is probably caused by the fact that a great many people in the country live very much to themselves and pass quite lonely lives. From this class there is always bound to be a large percentage of insane.

The city people do not allow their minds to brood over matters like their country cousins do, consequently they take life in a lighter vein, which, of course, has a tendency to reduce the percentage of insanity.

Outdoor mechanics provide a less percentage of insanity than the indoor mechanics.

This being the case, there should be very few cases of insanity from the agricultural classes, on account of the out door nature of their work, but when we consider the other aspect of the case, namely the loneliness of their situation, we can readily see why the percentage of insane from the agricultural classes is large.

The report does not show the drinking of liquor to be as strong a factor in producing insanity as it generally gets credit for. There are many classes of people showing a large percentage of insane who are not supposed to be drinkers of liquor at all.

Amongst these, the members of the Methodist church, of the nursing profession, governesses and students are all supposed to be temperate, and all of whom are to a great extent, temperate; but the fact that they are temperate does not give them immunity from the dreaded mental disease.

Are Your Buildings Insured?

A policy in a good Company is most important. The Company insures you against loss. What are you doing to insure your Company against loss on your buildings?

Lightning was the cause of 66 1/2 per cent. of all barn claims settled in 12 years by 40 Companies in Ontario. Had these been properly equipped with Lightning Rods, the loss would have been one-tenth of one per cent. of what it was.

Prof. Day, of the O.A.C., after 13 years of investigation, says that out of every \$1,000 worth of damage done to unrodded buildings by lightning, \$999 would be saved if these buildings were properly rodded. Ten cents would have been lost instead of a hundred dollars.

You and your neighbors really pay the losses. The company just collects from you and disburses the money they gather in from you. They are your trustees. You and your neighbors are insuring you, and you are helping to insure them.

The less your Company loses, the less you have to pay

It will pay you if you rodd. It will pay you if your neighbor rodds. Talk it over with him and tell him what we say. We would like to send you our catalogue, and will if you write us

"LINCOLN'S LAN" WILL

(Continued from page 1)

practical expression of our good wishes for the future and a slight recognition of your past services to Lincoln and this great Dominion. Signed A. Courtney Kingston, President; Henry O'Loughlin, Secretary.

Mr. Lancaster said he could without conceit usually express himself but on this occasion he was at a loss to find words to say what he felt in his heart. He was no hypocrite and he was not a whit ashamed to say to them that he appreciated this gift. It would relieve his anxiety over his doctors' bills for one thing. The kindly sentiments expressed he appreciated deeply.

Brief addresses of a congratulatory nature were made by Dr. Elliott, J. A. Keyes, David Allan, W. J. Drope, E. C. Graves and Ald. Chaplin.

Then came the surprise of the evening, when Mr. Lancaster arose and spoke as follows:

Mr. President and Gentlemen:— I have asked you to meet me to-day because I find it will be impossible for me to again offer myself to the people of Lincoln to serve them in Parliament, and I feel it to be my duty to let you know of that condition now so that you may not be hampered or prejudiced in any way in selecting my successor.

My experience and knowledge as to many other constituencies shows that many a man who would make a splendid representative refuses nomination and is lost to Parliament, because not sought until too short a time before elections to permit of arrangement of his private affairs. At the risk of being accused of vanity I also think it possible that more than one good man might refuse to consider the matter at all as long as there was any probability of myself being willing to continue. Also by knowing the condition of affairs at this time you and all the delegated representatives of the party to any convention to be called will have ample time to fully consider the many able men contained in our party and make the best selection.

I regret exceedingly that I cannot continue to serve the people in Parliament, but common honesty and my duty to my family compel me for the future to devote my working hours to earning a living to say nothing of laying up something in case Providence spares me to old age when I may not be able to work.

I have devoted fifteen of the best and most efficient years of my life to the people and can say without boasting that my work has been of substantial benefit to the people in more than one branch of legislation, but during the last three years practically all my time and energy between sessions has been required for my public duties (and for more hours every day than any man should work) with the result that I have had to live on the little I had laid by and, as I cannot make a living and continue in Parliament, I must in the future be content with merely looking on at public affairs and the satisfaction that comes from living by my profession and knowing that I am supporting those who have a right to it from me in a fitting manner without having to get into debt to do so. (As I have said) laying by something for old age. Words fail me to adequately express my deep thanks and appreciation of the confidence always reposed in me by our association and endorsed by the people of Lincoln continuously during the last fifteen years and of your many kindnesses in condoning my many shortcomings.

We have now in my opinion the most prudent and progressive government since the construction of the Canadian Railway, and my last word is to urge you to see that Lincoln does not fail to do its full share to sustain and support that destiny.

Some little time was spent in informally discussing the matter and finally it was arranged to leave it in the hands of the president to call a convention or to act as he considered best in the interests of the party.

Mr. Lancaster said he would serve in another session of parliament if one were called, so that a by-election would not be necessary.

Then the gathering was regaled to refreshments, songs were sung and a generally good time spent.

Check Chronic Rheumatism Now

RHEUMA THOROUGHLY DRIVES OUT DEEP SEATED URIC ACID POISON

There is only one way to be free from rheumatism—the accumulated impurities caused by an excess of Uric Acid poison must be expelled from the body. That is what RHEUMA will do and do it thoroughly. If you suffer from any form of Rheumatism—Sciatica, Inflammatory, Arthritis, Muscular, Lumbago or Gout—get a bottle of RHEUMA from W. M. Stewart Drug Co. for 50c—it is guaranteed.

"For years I suffered with Rheumatism in my arms and shoulders. My kidneys and bladder were affected and I rapidly lost flesh. After five weeks' use of RHEUMA I was a well man."—Wm. Fry, Fort Erie, Ont.

SUFFERED EVERYTHING

For Years, Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Canadian women are continually writing us such letters as the two following, which are heartfelt expressions of gratitude for restored health:

Glanford Station, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and never found any medicine to compare with it. I had diarrhoea and falling of womb and doctors did me no good. I suffered dreadfully for years until I began taking your medicine. I also recommend it for nervousness and indigestion."—Mrs. HENRY CLARK, Glanford Station, Ont.

Chesterville, Ont.—"I heard your medicines highly praised, and a year ago I began taking them for falling of womb and ovarian trouble.

"My left side pained me all the time and just before my periods which were irregular and painful it would be worse. To sit down caused me pain and suffering and I would be so nervous sometimes that I could not bear to see my one or hear any one speak. Little specks would float before my eyes and I was always constipated.

"I cannot say too much for Lydia E. Pinkham's Vegetable Compound and Liver Pills, for there are no medicines like them. I have taken them and I recommend them to all women. You may publish this testimonial."—Mrs. STEPHEN J. MARTIN, Chesterville, Ontario, Canada.

SENATOR GIBSON'S WILL

(Continued from page 1)

rest of her life in addition to any money she may be entitled to under the will for her sole and separate use.

Elizabeth Kelly of Greenock, Scotland, the senator's sister, is given \$100 a year. His sister, Jeannette Gibson Hayward of Eastwood, Ont., is given \$2,000. The brothers and sister, Alexander and Robert, are released from any claims he has against them, and the trustees are directed to pay Robert \$200 per annum as long as they, in their absolute discretion, deem it necessary.

The trustees are directed to set aside a fund sufficient to insure an annual income of \$5,000 to pay to Mrs. Gibson during her life in lieu of dower. The trustees are to set apart a fund of \$100,000 to be invested. The capital shall be preserved intact until one of his grandchildren attains the age of 25 years, whereupon the child shall be entitled to receive one share of such capital, the shares to be such that there would be a like share available for each of the grandchildren.

The will sets forth: "As I have heretofore given my daughter, Frances Isabel Gibson, wife of John Jennings, a house and premises valued at \$6,000, she shall be charged with such sum, and any other daughter who has received any advancement shall be charged with the value thereof, so that all shall share equally in my estate."

The trustees are authorized to carry out at the risk of the estate, any contracts which the senator might have under way, at the time of his death, but no other.

They may work any quarry he owned for this purpose. "And except under these circumstances, it is my express desire and election that no business in which I may be engaged at the time of my death shall be carried on or continued after my death."

The trustees are directed to apply as much of the income of the trust monies as will be necessary to properly maintain and educate the children in their position in life. The youngest child is to be so maintained until she is 25 years of age. No daughter is to be entitled to maintenance during her husband's lifetime. If the youngest daughter marries under 25, with the trustee's written consent, she is to receive her share derivable from the monies under life policies.

In the event of the death of Mrs. Gibson, the sum set aside for her income is to be divided among the children then living the grandchildren taking the share of the parent.

\$2,000 is to be divided equally between two children of the senator's sister, Jane Henderson Gibson.

The infants interested in the will are Evelyn Hannah Gibson, Margaret Evelyn Darling, Warren William Gibson Darling, Gwyneth Annie Darling, Jean Gibson Jennings, Robert Douglas Jennings, William Gibson Jennings, John Gibson Eastwood and Colin Kerr Eastwood.

THE ARMY WORM

On account of the crops in some districts being badly attacked by this pest, it is advisable for every farmer to be on the lookout and ready to combat it if it comes his way.

The army worm is about one and one-half inches long when full grown and is striped with black, yellow and green, of a dingy appearance and much resembling the cutworm. When detected, all efforts should be centred on keeping the worms out of the crop (not yet attacked). A deep furrow (several furrows are better) ploughed around the fields with the vertical or steep side of the furrow next to the crop to be protected, serves as a barrier to prevent the march of the worms, as they will not be able to crawl up the straight side of the furrow every ten or twelve feet to catch the worms as they crawl along looking for a place to get out. They can then be destroyed with a blunt stick or by burning straw over them.

By thoroughly spraying or dusting a small strip of the crop in advance of the worms with Paris green and liberally distributing poisoned bran mixed at the rate of fifty pounds and one pound Paris green with bran and one pound Paris green with bran enough molasses and water to sweeten it) large numbers may be destroyed. A field so poisoned must not be pastured until rain has thoroughly washed it. Whatever is done must be done quickly and at once, for a single day's delay often means the ruin of a valuable crop.

WORLD'S GREATEST KIDNEY REMEDY

"Fruit-a-tives" Have Proved Their Value In Thousands of Cases

WONDERFUL RECORD OF A WONDERFUL CURE

Only Remedy That Acts On All Three Of The Organs Responsible For The Formation Of Uric Acid In The Blood.

Many people do not realize that the Skin is one of the three great eliminators of waste matter from the body. As a matter of fact, the Skin rids the system of more Urea (or waste matter) than the Kidneys. When there is Kidney Trouble, Pain In The Back and Acid Urine, it may not be the fault of the kidneys at all, but be due to faulty Skin Action, or Constipation of the bowels.

"Fruit-a-tives" cures weak, sore, aching Kidneys, not only because it strengthens these organs but also because "Fruit-a-tives" opens the bowels, sweetens the stomach and stimulates the action of the skin.

"Fruit-a-tives" is sold by all dealers at 50c. a box, 6 for \$2.50, trial size 25c, or will be sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

Mr. and Mrs. M. N. Simpson, of Orono, announce the engagement of their daughter, Edna Ethel, to Mr. Howard B. Head, of Winona, son of the late Dr. and Mrs. J. G. Head, of St. George. The marriage will take place very quietly at the end of July.

Reeve Randall has proclaimed Monday, August 3, as Civic Holiday and the management of the GRIMSBY Recreation Company have decided to put on a big programme of racing and sports. For full programme see advertisement in this issue.

No need to send to Hamilton. We are now building on Robinson St. Come and see us and let us give you a price for new buildings or alterations, verandahs, sun parlors, etc. Mail your enquiries to Jones & Goss, GRIMSBY P. O., or 46 Gore St., Hamilton.

The second annual open-air festival under the auspices of St. Joseph's Church, GRIMSBY, will be held on the Church Grounds, Paton St., N. E. on July 29, 30, 31 and August 1. Orchestras will be in attendance and dancing will be allowed. Amusements and refreshments of all kinds will be provided. A popular contest, between two beautiful young ladies is now being conducted in connection with the festival and much keen rivalry and fun is being caused.

We are in receipt of another shipment of our famous 1914 blue serge cloth from which we make our special suit at \$15. This cloth is an extra fine one, made by one of the best mills in England. The dye is guaranteed and weight is 18-19 ounces. An excellent suit for a man who wants one to wear all year round. We manufacture these and sell them direct to you at wholesale price of \$15. This is the biggest suit value in America. Come in and let us show you. Farrar, Clothing Manufacturer, 5 Market St., Hamilton. We give premium tickets.

Constable John Newman, of GRIMSBY East, had his first case last Friday. A man who came over to the beach with a picnic, climbed into a cherry tree in Hamilton Fleming's orchard and started to pick a winter's supply of cherries into baskets. Reeve Fleming called in John and John gave a visit to the Fleming orchard. The man was up a tree and John grabbed him by the seat of the trousers and gave a pull. Rip-p-p-p and down went John onto the ground with the bottom of the man's pants in his hands. He eventually got his man and brought him up before Magistrate Kidd who let him off on suspended sentence, with a lecture on how to raise fruit of his own and not steal his neighbors'.

The Vineland Growers' Co-operative is launching out on a new venture in fruit packing for the city trade. They have just received a consignment of boxes and cartons for the packing of cherries. The cherries will be put up in these and be put on sale the same as California fruit is packed for the small consumer. This is an experiment on the part of the Vineland Company but they have already booked orders for all they can send to Toronto.

Mr. and Mrs. W. L. Stephen celebrated the fortieth anniversary of their marriage by taking a seven weeks' trip to Scotland and have returned after enjoying a very pleasant visit with many friends. The ocean voyage was all that any person could wish for. Kind and pleasant people to associate with and every comfort that could be desired and a drive of twenty miles through the most beautiful scenery in Scotland was very nice indeed and will not soon be forgotten.

The Whiting customers in this neighborhood who have been anxiously awaiting the result of the trial at Welland of the famous Whiting case will be pleased with the information forwarded by Mr. Hugh Mitchell of Niagara Falls, that while the Judge has not given out his decision, their lawyer has assured them that Mr. Whiting is beaten. The lawyer further states that the evidence admitted from New York State was quite damaging in spite of the fact that the Judge wasn't trying the man's character. The Judge's decision should be given shortly. So confident are the Niagara growers of victory, that they are already apportioning the cost of the action.

Born eighty-six years ago in the township of South GRIMSBY and a resident of Beamsville practically all his life until some two years ago when he went with his aged partner to live with his son in Woodstock, Cyrus Russ passed away last Saturday night after but a few hours' illness. FIRST CAR OF PRE-COOLING FRUIT GOES TO MONTREAL

The first car load of pre-cooled fruit from the large Government Pre-cooling plant at GRIMSBY, will be shipped this week by E. J. Woolverton & Co., to Hart & Tuckwell, Montreal, who will sell it for them on Monday morning. The car will be loaded with cherries, of the Fancy black Windsor and Montmorency varieties.

Messrs. Woolverton appreciate the efforts of the Department in erecting this plant for the benefit of the fruit growers and the trade in general and invite the most critical inspection of the buying public and if found satisfactory, ask for co-operation.

As a preliminary experiment to determine the after effect on the fruit when taken out of the pre-cooling chamber they took a basket of cherries which had been in the pre-cooling or 5 1/2 days and kept it under observation on their office desk. For the first few hours the fruit developed moisture. At the end of 16 hours it was practically dry and in perfect condition. At 27 hours, when this is typed, there is no deterioration and the fruit is quite dry.

There is no doubt that the Pre-cooling plant will be a great benefit to the growers and also to the general public, as they will be able to secure fruit in first class condition, even after the long journey.

If this car load is satisfactory it is the intention of Messrs. Woolverton to ship several car loads of pre-cooled fruit to different points during the season.

HEALTHY HAIR--NO MORE DANDRUFF

USE PARISIAN SAGE

It's entirely needless to have unsightly, matted, thin or faded hair. A little care is all that is needed to make it thick, pretty, perfectly healthy and free from dandruff.

Use Parisian Sage—it supplies hair needs and is absolutely harmless. It quickly stops itching head and falling hair, and is one of the best tonics to invigorate the scalp and make the hair grow long and beautiful.

Get a bottle of Parisian Sage today from W. M. Stewart Drug Co. or at any drug counter. It costs but 50 cents. Rub it into the scalp—all dandruff disappears—your head feels fine—the hair is pretty and perfectly healthy.

HAMILTON MIDSUMMER RACES NEXT WEEK

The Hamilton Jockey Club mid-summer meeting which commences on Saturday, July 25, and continues until Saturday, August 1, promises to be a great success. Applications for stabling room are being received daily at the Hamilton track and already there are a number of horses at the course including quite a few jumpers which are being schooled for the contests through the field. There will be seven races carded for each day and with fine weather this should be the banner meeting in the history of the club.

On open day the Prince Edward Selling Stakes for three-year-olds and upwards will be the feature race, the distance being one and one-quarter miles. On Tuesday, July 28, the Nursery plate for two-year-olds will be run which will bring together a classy field of youngsters. The Brantford Selling Handicap will be run on Thursday, this being a race for three-year-olds and upwards, the distance being one mile on the turf and on Saturday, August 1, the Hamilton Cup handicap at a mile and a quarter for three-year-olds and upwards will be carded and promises to bring together a lot of the best horses on the Canadian circuit this year.

The Secret of Health is Elimination of Waste

Every business man knows how difficult it is to keep the pigeon holes and drawers of his desk free from the accumulation of useless papers. Every housewife knows how difficult it is to keep her home free from the accumulation of all manner of useless things. So it is with the body. It is difficult to keep it free from the accumulation of waste matter. Unless the waste is promptly eliminated the machinery of the body soon becomes clogged. This is the beginning of most human illness.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

Assists the stomach in the proper digestion of food, which is turned into health-sustaining blood and all poisonous waste matter is speedily disposed of through Nature's channels. It makes men and women clear-headed and able-bodied—restores to them the health and strength of youth. Now is the time for your rejuvenation. Send 21 recent stamps for Dr. Pierce's Common Sense Medical Advice—1000 pages—worth \$2. Always handy in case of family illness.

GRIMSBY BEACH HAS BEEN A BUSY PLACE THE PAST WEEK

There are More Picnics and Larger Picnics Than Ever at This Popular Resort This Season—Civic Holiday, Aug. 3rd.

Between the Sunday boat, picnic, near-drownings, rescues and the big show in the auditorium, GRIMSBY Beach has been a pretty busy place the past week.

This season has seen more picnics and larger picnics into the Beach than ever before in its history, and the management are to be congratulated upon the manner in which they are handling the large crowds. Three and four thousand people a day is a regular thing at this popular resort these days and it is to be hoped that they continue to have large crowds.

The Park House hotel is starting to fill up, and is now handling about its usual large crowd of weekly guests. The Lake View is open and is rapidly filling up. A great number of bookings have been made at this time for the effect of the money stringency but very little.

All the concessions report doing an excellent business and state that they do not feel the effect of the money stringency but very little. The Macassa is making regular trips into the Beach and is being helped out almost daily by the Rapids King. The boats are bringing in great crowds of picnickers.

The business at the Auditorium has picked up wonderfully during the past week and this house is now doing a business almost equal to the remarkable business of 1911, when the Sarah Gibeon Stock Co. held the boards.

The last two bills presented were pleasing ones, and did a lot towards popularizing the company.

The bill "The Mountaineers" is about one of the best comedy dramas yet produced in this house and the comedy supplied by that irresistible funny man, Eddie Black, is of the highest type. His portrayal of the "Rube Kid" is a wonderful and life-like piece of acting and he keeps his listeners in uproars of laughter at all times.

Next to Mr. Black, the work of Miss Burdell is the outstanding feature of her sweet winsome manner, coupled with clear enunciation and clever acting, is making her a big favorite with the attendants.

The bill the last half of this week, is one that shows what a woman will do for a man she loves and especially so if it happens to be her brother. "For Her Brother's Sake" is the title of the bill and we know that you will be pleased with it, as it is a bill that will grip you from curtain to curtain, with a car-load of laughs thrown in.

"A Woman's Revenge" is the bill for the first half of next week.

Monday, August 3, has been claimed Civic Holiday by Reeve, Randall and it is also Toronto's Civic Holiday. The Beach will be in excellent condition to entertain you on that day and we want you all to be present and enjoy yourselves.

The 44th Regt. band will give a grand free open air band concert on the picnic grounds from 6.30 to 8 o'clock and it is a foregone conclusion that you will enjoy this musical treat.

In the Auditorium, the Knickerbocker Co. will present one of the sweetest stories ever written, "The Village Blacksmith," a play that will touch the heart chords of all who see it.

FULTON LADY INJURED

A street car and an automobile became mixed up at the corner of King and Victoria Avenue, Hamilton, Thursday morning with the result that Mrs. Annie Nelson, of Fulton, one of the occupants of the car was cut around the head. The car containing Roy Birch, the chauffeur, Mrs. Nelson, her daughter-in-law, Mrs. G. Nelson, her daughter, Miss A. Nelson and two grandchildren of Mrs. Nelson, turned from Main street to Victoria Avenue and evidently did not hear the approaching east-bound car. The chauffeur attempted to steer out of the way and the car struck the auto a glancing blow, the fender ripping the rear tire from the motor. Mrs. Nelson, sen., was thrown against the wind shield and sustained a badly cut head. The other occupants of the car escaped without injury beyond severe shaking up. Mrs. Nelson was carried into the office of Dr. Leach, where her injuries were dressed. Dr. Rennie was summoned and he had her removed to St. Joseph's Hospital, where it was found that her injuries were not serious.

FULTON LADY INJURED

A street car and an automobile became mixed up at the corner of King and Victoria Avenue, Hamilton, Thursday morning with the result that Mrs. Annie Nelson, of Fulton, one of the occupants of the car was cut around the head. The car containing Roy Birch, the chauffeur, Mrs. Nelson, her daughter-in-law, Mrs. G. Nelson, her daughter, Miss A. Nelson and two grandchildren of Mrs. Nelson, turned from Main street to Victoria Avenue and evidently did not hear the approaching east-bound car. The chauffeur attempted to steer out of the way and the car struck the auto a glancing blow, the fender ripping the rear tire from the motor. Mrs. Nelson, sen., was thrown against the wind shield and sustained a badly cut head. The other occupants of the car escaped without injury beyond severe shaking up. Mrs. Nelson was carried into the office of Dr. Leach, where her injuries were dressed. Dr. Rennie was summoned and he had her removed to St. Joseph's Hospital, where it was found that her injuries were not serious.

IT'S A GOOD LETTER AFTER ALL
Someone has advanced the opinion that the letter "e" is the most unfortunate letter in the English alphabet, because it is always out of cash, forever in debt, never out of danger and in hell all the time. For some reason he overlooked the fact that the letter, as we call his attention to the fact "e" is never in war and always in peace. It is the beginning of existence, the commencement of ease and the end of trouble. Without it there would be no meat, no life and no heaven. It is the centre of honesty makes love perfect and without it there could be no editors, deists nor news.—Fourth Estate.
